TECHNICAL SKILL

Programming Languages : JavaScript, Python, Java, SQL

Frontend : HTML, CSS, React.js, Tailwind CSS

Backend : Node.js, Express.js, Spring Boot

Databases : MySQL, MongoDB

Data Science & AI : LLMs, Neural Networks

Tools & Platforms : Git, GitHub, Postman, VS Code, Docker, AWS

DSA : Solved 200+ problems on LeetCode

PROJECTS

1. **E-Commerce API (Node.js, Express.js, MySQL, JWT)**

GitHub: <https://github.com/Phani-stack/ecommerce-backend>

Description:

- Developed a backend for an e-commerce platform using Node.js and Express.js.
- Implemented JWT-based authentication and role-based authorization for users and admins.
- Built RESTful APIs for authentication, user management, product management, and protected routes.
- Added input validation, centralized error handling, and secure API design following backend best practices.

2. **URL Shortener (React, Node.js, Express.js, MySQL)**

Live: <https://urlshortner.thephanik.in>

GitHub: <https://github.com/Phani-stack/url-shortner>

Description:

- Built a full-stack URL Shortener application using React, Node.js, Express.js, and MySQL.
- Implemented secure user authentication and authorization using JWT and bcrypt.
- Developed RESTful APIs for URL shortening, redirection, and user-specific URL management.
- Designed a unique short code generation system with collision detection for reliable URL creation.
- Deployed the application, gaining hands-on experience in full-stack development and production deployment.
